

SkyScape Solutions

**Making your business
more profitable...**

August 2005 Update

News of Note!

Sharon is speaking at SME 2005 in Birmingham on the 4th of October at 12:45, please see details on the SkyScape website under News/Media.

SkyScape Solutions, together with Logistics Europe magazine, is sponsoring a round-table discussion in September on collaboration in the supply network. The key findings will be compiled and made available by SkyScape Solutions as a white paper, so please register on our website to receive it!

SkyScape Solutions has been named as an accredited partner by Proforma EMEA Ltd, and is now a reference site for the ProVision modelling tool.

Notable Numbers!

Our One Year Anniversary was 1 August 2005!

Realised for our clients to date—more than £2.2M!

What we are doing for our clients!

- **Business profitability improvement**

We are using a business process management approach to increase performance and reduce costs—assisted by using our TEaMS workshop methodology.

- **Business process modelling to assist in software implementations**

We have been developing detailed process models to help companies prepare for and implement new software solutions. This helps in both requirements understanding and in gap analysis.

Register on our website for the latest Harvard research on Supply Chain Strategy
