

SkyScape Solutions

Freeing business to do business

SkyScape Solution's May Update

Our Mission

We work alongside logistics and distribution companies to increase business profitability through the use of leading-edge business process modeling and workflow analysis tools—to identify areas for improvement and deliver solutions to optimise the supply network.

News of Note!

Sharon spoke at a recent PRISM Forum meeting at the National e-Science Centre in Edinburgh on the impact of workflow and web services with today's collaborative supply network.

SkyScape will be presenting at the WfMC Annual Conference in Philadelphia in mid-May on the status of workflow in the UK during 2005.

SkyScape has recently joined CompTIA, the industry association for the computer and technology market. We will be presenting on innovations in reverse logistics at the Fall 2005 meeting.

Business profitability improvement!

We use a business process management approach to increase performance and reduce costs. This is based on our "TEaMS Toolkit" and we are having great success with it! To know more about how we can help you, please contact us!
